*Joshua Goss, geologist, artist and sculptor, forging a metal sculpture in his Denver studio. [www.joshuagoss.com](http://www.joshuagoss.com)*

*The Petroleum Club has commissioned a wall-mounted sculpture by Joshua Goss through Kinzelman Art Consulting. The stunning work of art will be made of compressed steel, bronze and stainless steel, and is meant to suggest geological formations through contrasting striations. The sculpture will be 3' x 5' and weigh 500 lbs. It will be displayed in the new Wine Room.*
